To Whom it May Concern:

I am pleased to recommend Patrick Archuleta for a Student Teaching Position. Patrick was my student in the fall of 2011 when I taught the Northern New Mexico College course EDU. 313, *Science and Math for Teachers*. During the short time I worked with Patrick, he displayed a high degree of integrity, responsibility, and initiative. Additionally, he demonstrated the ability to work hard through timely delivery of weekly assignments and projects.

Patrick consistently displayed his passion for learning and the subject matter through his full engaged in our frequent small and whole group discussions. He never hesitated to share his own thoughts with classmates while at the same time always listened respectfully. It was clear from my interaction with Patrick that he is naturally curious and embraces new learning as a way of life for himself - a critical attribute all good teachers should have. Additionally, Patrick embraced the practices of reform science and mathematics teaching, believing that students learn best when they start with a concrete experience. Further, he became a strong advocate for science and mathematics writing as a vehicle for conceptual understanding, and embraced the practice of science notebooking.

I am confident that Patrick will be a tremendous asset to education in Northern New Mexico and I am pleased to give him my wholehearted endorsement for a Student Teaching Position. If you have further questions, please do not hesitate to call or email me at the contact information below.
